

Performing Arts Center Fiscal and Economic Impact Durham, NC

Mr. Yewell prepared a fiscal and economic impact analysis for the proposed Durham Performing Arts Center (DPAC), a 2,800-seat multi-use facility. Through a combination of summer performance space for the American Dance Festival, a year-round schedule of national entertainment acts, and designated time for local entertainment events, the DPAC will enhance the marketing and entertainment cache of downtown Durham's thriving arts scene.

The findings of the fiscal and economic impact analysis were instrumental in garnering support for public investment in the facility. Final construction documents for the facility are nearing completion.
